## ROCK PICKERS

# RR250ST RR900ST

## REMOVE YOUR ROCKS.

Rite Way rock pickers with hydraulically driven reels can be used as both a fork-type and rotary rock picker for the ultimate in flexibility and efficiency. The reels rapidly pick small to medium sized stones or can be used as a support while picking large rocks.

## ROCKPICKER FEATURES

### 1 - Hydraulic Drive.

Match the reel bat speed to your picking needs, stop the reel to pick a single large rock, or clear a jammed rock by reversing the reel.

### 2 - Wide range of rake heights.

Adjust rake height and use bats for support to pick large rocks and load them into the hopper. Or, keep rake at a minimal angle to separate rocks from dirt quickly and with minimal ground disturbance.

### 3 - Shock protection.

Both reels and forks are shock-protected to allow our rockpickers to remove extra-large rocks. The small but mighty RR250ST picks rocks up to 24" x 45" (61 x 144 cm) and the RR900ST handles rocks up to 28" x 55" (81 x 140 cm).

### 4 - Simple to dump rocks.

An electric solenoid lets you unload with the flick of a switch from your tractor.

### 5 - Ready to Move.

The Hydraulic angled hitch allows you to go from transport to field mode and back again quickly and easily.

## REEL & FORK TEAM UP FOR PICKING LARGE ROCKS.

By positioning the rake and using the reels as a support, the RR250ST can pick rocks up to 24" x 45" (61 x 144 cm) and the RR900ST picks rocks up to 28" x 55" (81 x 140 cm).

### ROCKPICKER STANDARD EQUIPMENT:

- Multi-position Hydraulic Swing Hitch
- 10" Side Wind Parking Jack
- Safety chains

## RAKE YOUR ROCKS.

Clean up your field in record time when you use a Rite Way Windrower in conjunction with your rockpicker.

### WINDROWER FEATURES

#### Affordable and efficient.

An affordable way to speed up your rock picking. Handles rocks from 1 1/2" to 12" (4 to 30 cm) diameter.

#### Three-row spiral design.

For improved speed and efficiency of delivering rocks to windrow.

#### Replaceable Hard-surface teeth.

Ensures long life of the equipment.

#### Hydraulic drive.

Hydraulics control both the depth of the rake and the field to transport positions.

#### Seedbed preparation.

Efficiently breaks up clumps and prepares the soil for seeding.

Working width: 142" (3 1/2 m)

### WINDROWER STANDARD EQUIPMENT:

- Replaceable hard surface teeth

### RR250ST

1.25 CU YD / 1 CU M CAPACITY  
8.7' / 2.7 m Transport Width

### RR900ST

3.2 CU YD / 3.2 CU M CAPACITY  
10.8' / 3.3 m Transport Width

## ROCK WINDROWER

# RW1200HD

# MADE TO WORK. BUILT TO LAST.

Whether your rocks are small or large, the Rite Way Rock Pickers and Windrower are ideal to prepare your land for what's to come. Choose the right size of field-proven equipment to fit your unique needs.
